AMENDMENT

Dear Sir:

Responsive to the Official action mailed March 14, 2005, please amend the above-referenced patent application using the below instructions.

INTRODUCTORY COMMENTS

In accord with the requirements of 37 C.F.R. § 1.121, the amendment to the specification and the claims including a complete listing of all pending claims in the application begin on a separate sheet to facilitate indexing and electronic scanning of the amendment document for placement in an e-file wrapper. As required, only the claim number and status indicate any canceled claims. For the convenience of the Office staff, the amendment is placed in the below Appendix and incorporated herein by reference thereto.

Applicants are making certain revisions in the specification and claims to comply with the Examiner's recommendations or otherwise correct obvious typographical errors. No new matter is introduced into the application by this amendment.

REMARKS

Reconsideration of this application, as amended, is respectfully requested.

The Examiner required restriction to either Group I drawn to Claims 1-19 or Group II drawn to Claims 20-21, for reasons set forth on pages 2 and 3 of the Office action. Applicants respectfully traverse and ask for the withdrawal of the restriction requirement.
